Recent Updates Include: New stove, microwave, and fridge (2020) New dishwasher and disposal (2023) This property offers the ultimate beachside lifestyle—walk to nearby bars and restaurants, and the beach is just steps away. The views are nothing short of life-changing, making this a must-see! Additional Information: Seller is in the process of creating a two-unit condominium. The seller currently occupies the top floor and is selling the unit below. Unit does not have a separate washer and dryer, but there is a set located at the base of the stairs to the top floor (sellers' unit). The seller is open to permitting the buyer, at their own expense, to open a doorway in the hallway wall in order to install a stackable washer and dryer unit, where the current shared washer and dryer are located. The seller would then seal off the access from their unit, making the washer and dryer exclusive to the second-floor unit. Other location suggestions are: primary bedroom closet, primary bedroom sitting area or kitchen. There are two furnaces, one for each unit. This will remain as such. The hot water heater is shared but will be updated so that the unit being sold will have its own separate hot water heater. Gas and electric are currently shared, but the seller will arrange for separate meters once a buyer is secured. Taxes are currently based on the property being zoned as a Single Family home. Shared fees and taxes will be updated once the property is reclassified as a condominium. The seller rents privately and has tenants in place for July, August, and September and wants to honor these bookings as they are all repeats. The ideal closing date is in October. Don't miss your chance to experience this incredible beachside haven. Call now to schedule a private showing before it's gone—summer bookings are already full, and this is the best time to see it!
