### COMMENTS

An excellent buy for someone looking for an entry level investment or you can occupy throughout the year. This is your very own sand castle by the sea! Just a short walk to the shops and restaurants at the 34th street location. It is pet friendly for the family that has the 4 legged family member. There is a laundry room on site, storage and parking so you can just park your vehicle and have a short walk to the beach or shopping. The taxes and association fee isn't a large periodic amount. Contact agent for details.
