This meticulously maintained 4-bedroom, 2.5-bath custom-built residence is a true gem, offering a harmonious blend of elegance and modern upgrades. Step inside to discover hardwood floors throughout the first floor, with easy-to-clean laminate in the kitchen, and crown molding that adds a touch of sophistication to the living room. The heart of the home is the beautifully updated kitchen, featuring newer appliances and granite countertops installed just two years ago. The master bedroom is a serene retreat with cathedral ceilings, a luxurious soaking tub, a new vanity, and updated flooring. Convenience is key with the washer and dryer located upstairs, making laundry day a breeze. All rooms are spacious and thoughtfully designed for comfort. Custom paver walkways lead to a new concrete patio (installed in 2021) and an inviting gunite in-ground POOL, complete with a new pool cover and vacuum. The pool area is fenced in for privacy and heated by a pool heater installed in 2016. The wood fence on the left side of the home adds to the sense of seclusion. An Amish-built shed provides additional storage. This home is not just beautiful but also practical, with solar panels installed in 2015 by All Seasons Solar, keeping your energy bills around \$70. Other notable upgrades include a new air conditioner (2016), new toilets in all three bathrooms, and new vanities in the master and hall bathrooms.
