Permit approvals have been submitted for a church, pending approvals. The main floor of the home features 3 spacious bedrooms, a living room with a fireplace, and a dining area, an eat-in kitchen, and a full bathroom. The finished basement offers approximately 1400 sq ft of living space with 2 more bedrooms, a second full bathroom, a living room, additional closets, and an extra room currently functioning as a home gym with outside access which leads to the pool area. There's also a potential for a half bath on the main floor, roughing in place. Step outside to discover a private oasis. The expansive yard showcases an in-ground fiberglass pool with an entertainment area, plus a pool house complete with a half bathroom. Perfect for gatherings, the outdoor space includes a kitchen and gas grill burner, creating the ideal setup for summer fun. A great place to entertain your friends and family.
