COMMENTS

A rare offering, this traditional brick 4 bedroom, 2 bath home sits on an over-sized lot, 217' x 100' irr. and has been owned by the same family since it was built. This property can be advantageous for buyers seeking extra space or considering expansion. The lot size has a lot of potential for development and has the square footage for possible subdivision upon planning board approval. The current house sits on one lot and the tennis courts on the other. The home is conveniently located across from the golf course while being just minutes away from the beach, restaurants, farmer's market, Brigantine golf links and more. For this price, there are many possibilities! You can occupy the home and add-on and put in an in-ground pool, you can utilize the house and sell the lot upon planning board approval, or sell both and build new construction.
