Asking \$240,000.00

COMMENTS

This spacious 4-bedroom, 1.5-bath home offers a great layout and solid bones with several recent upgrades already in place. The property includes a walk-up attic for added storage or future expansion, a full basement, and a detached 2-car garage—ideal for storage, hobbies, or workshop space. Recent improvements include a new refrigerator, electric stove, microwave, and dryer, along with a roof replacement in 2019. The home also features central air and gas forced-air heat for year-round comfort. Leased solar panels, installed in 2015 at just \$108/month, help keep energy bills manageable. While the home has seen key updates, there's still room to bring your vision and personal touches to make it your own. Situated in a well-located neighborhood, this home presents an excellent opportunity for homeowners or investors looking for value and potential.
