With over 3,200 above grade square feet and additional living space in the finished basement, this home offers room for the whole family and then some! You're sure to be impressed from the moment you step into the two story entry foyer with tons of natural light pouring in. Off of the foyer is an office/study on one side and a large formal living room and dining room on the other. But the star of this home is the huge chef's kitchen with center island overlooking the magnificent family room with it's soaring cathedral ceilings and floor to ceiling stone gas fireplace. The home also offers both a front formal stairwell as well as a back stairwell for ease of access to the 2nd floor. The luxurious primary suite with it's double door entry and spacious layout will accommodate the most grand furniture. And you will love the spa like en-suite bathroom with its whirlpool tub, separate shower stall, double vanities and private water closet. Oh and don't miss the huge walk-in closet. There's another four spacious bedrooms on this level as well as a divided hall bathroom. Need more living space?
